A Lecture Presentation at South Padre Island, Texas

Bisphosphonate-Related Osteonecrosis of the Jaw

OVERVIEW
This course will provide an update regarding patients who are prescribed bisphosphonates for the treatment of osteoporosis and hypercalcemia of malignancy and a review of bisphosphonate-related osteonecrosis of the jaw (BRONJ). This will be followed by a pharmaceutical review of (BRONJ)

OBJECTIVES
• Review of the use of bisphosphonates in the treatment of osteoporosis and hypercalcemia of malignancy
• Review of bisphosphonate pharmacology and clinical indications
• Review of proposed mechanisms of BRONJ and its clinical presentation
• Review prevention recommendations for BRONJ
• Review current treatment protocols for BRONJ

PRESENTERS
JAN M. BRUDER, M.D., is an Associate Professor in the Department of Medicine-Clinical Chief, Division of Endocrinology at The University of Texas Health Science Center at San Antonio. Medical degree is from Louisiana State University Medical Center in New Orleans, Internal Medicine Residency at the Medical College of Virginia and fellowship training at the University of Colorado Health Science Center in Denver.

SIDNEY L. BOURGEIOS, JR., D.D.S., is an Assistant Professor in the Department of Oral and Maxillofacial Surgery at The University of Texas Health Science Center at San Antonio. He obtained his dental degree from the Louisiana State University School of Dentistry in May 1991 and completed his residency in Oral and Maxillofacial Surgery at The University of Texas Health Science Center at San Antonio in 2002.

Alumni Association Lunch & Learn

“WEALTH MANAGEMENT STRATEGIES FOR PROFESSIONALS”
ELLIS D. “BUD” RAİNSBERGER, B.S.

OVERVIEW
This presentation will provide an overview of income, estate and tax concepts and how to redesign retirement for dentists. Differences on tax rates between Dividends, CD and Bonds will be discussed, and how to create a tax efficient portfolio.

OBJECTIVES
• Understanding the reasons to build a comprehensive wealth management plan
• Introducing the various components of a tax efficient portfolio and a wealth management plan.

PRESENTER
ELLIS D. “BUD” RAİNSBERGER, B.S., is President of Rainsberger Wealth Advisors, Inc., and advisory firm in Colorado Springs, Colorado. He is a frequent lecturer to civic and professional groups nationwide, and for the sixth consecutive year, his firm was recognized by Bloomberg’s Wealth Manager Magazine, as one of the nation’s premier wealth management and consulting firms. He started his financial career for A.G. Becker, the predecessor to SEI, in Chicago, Illinois in 1980. He founded Rainsberger Financial Strategies, Inc. (now known as Rainsberger Wealth Advisors) in 1990, and serves as a strategic advisor to individual and corporate clients across the country.

TIMES
Reception Extravaganza and Check-in:
Friday, 6:00 PM – 7:30 PM
Blue Marlin Room, Sheraton Beach Resort Hotel

COURSE CHECK-IN AND CONTINENTAL BREAKFAST
Saturday, 7:00 AM – 7:30 AM
Program, Saturday, 7:30 AM – 11:30 AM
Sheraton Beach Resort Hotel

ALUMNI ASSOCIATION LUNCH AND LEARN
Lunch & Learn: 11:30 AM – 1:00 PM
Sheraton Beach Resort Hotel - (124515F)

TUITION**
Individual: $249.50
Alumni Association Member: $199.50

UTHSCSA ALUMNI MEMBERSHIP DUES
Alumni Annual Fee: $55.00
Alumni Lifetime Membership Fee: $1000.00

CREDIT (Course Code: 124515A)
AGD Code: 310
Hours: 4

EVERYONE IS WELCOME TO ATTEND REGARDLESS OF SCHOOL AFFILIATION.

SPECIAL TUITION INFORMATION
**Tuition includes Mexican Fiesta Buffet on Friday evening and a buffet breakfast in the restaurant on Saturday at the Sheraton South Padre Island Beach Resort. The course fee also includes the refreshments at the breaks.

ACCOMMODATIONS & LOCATION
Sheraton South Padre Island Beach Hotel and Condominiums
310 Padre Boulevard
South Padre Island, Texas 78597
(956) 761-6551
Rates: Single/Double: $179.00 • Condo: $370.00 - $420.00
The cut off date for the room block is June 21, 2008. Special Rates for Room Block Indicate The University of Texas Health Science Center at San Antonio room block.

IMPORTANT INFORMATION
Please join us at this enlightening presentation brought to you by the Dental School Development Office. Lunch will be provided, and spouses are welcome to attend this informative session. Early registration is required in order to confirm meal count. Sorry, but we will not be able to handle on-site registrations this year. Cut-off date is July 3, 2008.

The Dental School Alumni Association is inviting all dentist to the best kept secret of the summer. Everyone is welcome to attend regardless of school affiliation.
The Dental School Alumni Association is inviting all dentists to the best kept secret of the summer! Everyone is welcome to attend regardless of school affiliation.

FRIDAY
Bay Fishing at R&R Hi-Way Bait Stand & Marina: $95.00 each.
Check-in at the dock at 6:00 AM
A very popular event for all ages. You can even take your fresh catch from the morning to the hotel restaurant and have a great lunch prepared by the chef. We even cover the cost of the lunch.

Family Day at Schlitterbahn: Adults $23.00, Children $19.50. Children under 2 are free. Check-in will be at the Sheraton Hotel Lobby at 9:00 AM. Park opens at 10:00 AM. Schlitterbahn Beach Waterpark is a tropical paradise at the southern tip of Texas. Nestled against the sand dunes of the Gulf of Mexico, this waterpark adventure is a great way to start the family weekend.

FRIDAY EVENING
“Fiesta South Padre Island” at the newly renovated Sheraton South Padre Island Beach Hotel and Condominiums will feature a Mexican Fiesta Buffet and cash bar from 6:00 PM to 7:30 PM in the Blue Marlin Room on the second floor.

This reception and the children’s special event room is complimentary to the participants of the CE course.

Spouse/Guest: $10.00 each
Children ages 10 and under no charge

“Paint a Tooth”
This is a new event this year that will take place in the Children’s Special Event Room located across from the Reception.

Participating children will design a tooth and CE participants will vote by depositing cash in voting box's that will be provided. The winning design will be announced during Saturday morning program.

(Any denomination is accepted)

“A Knight with the Sand Krabs” following the reception starting at approximately 8:45 PM

“Fireworks Over the Bay” after the reception at sunset approximately 9:15 PM

SATURDAY
Beach Umbrella Rentals (two chairs) $22.00 each. A must if you plan to participate in the activities planned for the beach. Avoid the hassle and be a part of our group by placing your order with us by July 3. Past participants will receive priority placement. Honor classes will be assigned locations by group.

Sand Castle Family Event on beach front of Sheraton South Padre.

Annual Sand Castle Extravaganza is a free event for the entire family to enjoy. The competition begins at 2:00 PM. Demonstration and instructions on “sand castle building” by Amazin’ Walter & Sons of The Beach will take place from 12:30 PM. There is no charge for this activity.

Honor Class Reunion Dinner for the following:

Dinner at: Pelican Station in Port Isabel
Buffet and Cash Bar.
http://www.pelicanstation.net
Adults @ $35.00 each
Children (4-11) @ $10.50 each
Children (4-under) no charge

CLEAR YOUR SCHEDULE NOW TO ATTEND THESE FAMILY FRIENDLY ACTIVITIES!
Current Alumni Members will receive a reduced tuition fee of $10.00 off our 2008 summer courses.

June 20
Lecture/Participation Course
Why Should General Dentist Learn to Surgically Place and Restore Dental Implants?
CHARLES “DUKE” ALDRIDGE, D.D.S., MAGD, MICOI

JUNE 20
Texas Brief AM/Lecture Course
“Lawsuits, Dental Board Investigations, and Other Bad Things That Can Happen to a Dental Practice!”
How to Avoid These Setbacks in Your Dental Office.
EDWARD P. “JOE” WALLER, D.D.S, J.D.

In order to develop an alumni newsletter, we need your help with events and favorite stories of interest. Don’t be afraid to send us those stories or photos about your dental school days as well. Send us information in the following categories listed below. You may visit the CDE website at http://smile.uthscsa.edu and click on the Alumni Association link to access the Alumni Association webpage. Please keep the following guidelines in mind when you submit items for publication. *Due to deadlines, it could take up to six months from the time you submit us your information to when it appears in the newsletter.

**Letters**
Write us and we’ll publish your letter in the next issue of the Alumni Association Newsletter!

**Profiles**
We’ll print short individual biographies of interest under this category.

**Post Cards**
Post Cards and Class Notes
Send in those pictures and captions and we’ll either post them on the Alumni Association website or publish them here.

**Dental School Focus**
Current newsworthy events and activities are posted here.

**Campus News**
This is when we will share Health Science Center stories of interest will be placed under this category.

**Association News**
Planned activities—recent, past, and future.

**Class Notes**
What’s happening in your life? Just got married? Had a baby? Opened a new dental office? Personally and professionally—we want to hear from you!

**Nostalgia**
Send us interesting facts and stories from the past! For example, who remembers when the floor of the classrooms was forced up by rising water in the early days of our school?
As we honor Dr. James P. Hollers at the 25th Annual Lectureship, we commemorate his memory as a Texan with vision, numerous civic and military achievements, and as a dentist of national stature, having held the post of President of the American Dental Association. In celebrating his memory, we have invited another prominent lecturer, Vincent G. Kokich, DDS, MSD, to San Antonio to present pertinent clinical and relevant information at the 25th Annual Hollers Lectureship.

One of the turning point events in the long history of San Antonio took place on June 5, 1969 in front of the Alamo under the blazing South Texas sun. Preston Smith, Governor of Texas, signed the legislative bill that authorized the construction of the Dental School in San Antonio as well as the Nursing School and The University of Texas at San Antonio. Proudly looking on, just over Governor Smith’s shoulder, was Dr. Jim Hollers, who on that day saw his twenty year campaign to bring not only a Dental School, but also an entire Medical Center Complex to San Antonio, transformed from dream to reality.

Without a doubt, the history of Medical Education in South Texas and what we now know as the South Texas Medical Center is intertwined with the history of Dr. Jim Hollers. If it’s true that every great enterprise requires the right person, in the right place, at the right time...then Dr. Jim Hollers was the right person, in the right place, at the right time for San Antonio.

All the hard work paid off. When the 1969 Texas Legislature met in January, there was little doubt that San Antonio would emerge with a Dental School. And the third piece of Dr. Hollers’ dream fell into place just a few months later in the Alamo Plaza as he stood behind Preston Smith, watching the Governor sign the authorization.

Planning for the Dental School moved ahead quickly, assisted in no small measure by the availability of millions of dollars of construction funds from the Department of Health Education and Welfare who agreed to pay two-thirds of the costs of the new building. The original plan was to enroll the first Dental School class after the building was completed but the Acting Dean of the School, Dr. Victor Olson, who was also Dean of The University of Texas Health Science Center at Houston, Dental Branch, obtained enough additional funding from the Legislature to open the School in the fall of 1970 in a temporary facility.

Dr. Billy Rigsby came to San Antonio from Houston with Dr. Victor Olson and was in on the ground floor of planning in 1970. Drs. Olson, Rigsby, and many other faculty members who signed on in the first year worked round the clock to blue print the facility and ensure it was state-of-the-art.

Own a very special book on the life of James P. Hollers.

“A Man of Works: The Life of James Porter Hollers”

Order yours for $35.00, and donate an additional book $26.00 to help fund a gift to the 2009 graduates.
OVERVIEW
Orthodontists, periodontists, surgeons, and restorative dentists often have pre-determined goals regarding the esthetic relationship of teeth. But these goals may differ from the esthetic goals of the patient. A recent study, completed at the University of Washington, shows that lay persons may not notice certain problems that dentists and orthodontists strongly believe should be resolved.

Therefore, problems such as midline discrepancy, unequal crown length, incisal plane asymmetry, “gummy” smile, altered incisal inclination, “black” triangles, and crown width discrepancies may not need correction. Is there a threshold level, where these discrepancies are noticed by both lay persons and dentists? Are there discrepancies that are not noticed by either dentists or nondentists and should remain untreated? If these problems are to be treated, what are the roles of the orthodontist, periodontist, and restorative dentist? How, when, and where should tooth position be altered to accommodate for future restorative dentistry?

This presentation will use many clinical examples to: (1) identify the six major problems in anterior tooth position that produce esthetic discrepancies; (2) provide threshold levels that determine which problems should or should not be treated; (3) illustrate the method of treating each of these esthetic dilemmas (orthodontic, periodontal, surgical, or restorative); and (4) describe the interaction that is necessary among clinicians to establish the ideal result for even the most difficult esthetic discrepancies.

OBJECTIVES
After attending this course, participants will learn how to treat:

**MIDLINE DISCREPANCIES**
- threshold level for correction of midline deviation
- keys to solving midline problems
- relationship of axial inclination and midline discrepancies
- method for assessing midline deviation
- restoration of mediolateral inclination problems

**INCISAL PLANE ASYMETRIES**
- threshold level for correction of incisal plane asymmetries
- 3 possible solutions (orthodontics, jaw surgery, restoration)
- 4 criteria to differentiate the appropriate solution

**CROWN WIDTH DISCREPANCIES**
- threshold level for correction of crown width problems
- learn where to position peg-shaped laterals for ideal restoration

**UNEQUAL CROWN LENGTH**
- threshold level for correction of crown length problems
- 3 possible solutions - gingivectomy, orthodontic intrusion and restoration, or orthodontic extrusion and equilibration
- learn the 4 criteria to determine the correct treatment choice

**“GUMMY SMILE”**
- method for evaluating gingiva to lip relationship
- threshold level for correction of gingiva to lip relationship problems
- 3 treatment options (jaw surgery, periodontal surgery, intrusion)
- 5 criteria to determine when each solution is appropriate

**“BLACK SPACES”**
- threshold level for correction of open gingival embrasures
- 3 causes - tooth shape, tooth position, periodontal defects
- learn how “black spaces” can be corrected

**PRESENTOR**
Vincent G. Kokich, D.D.S., M.S.D., obtained his dental degree from the University of Washington’s School of Dentistry in 1971, followed by his MS and Certificate in Orthodontics in 1974. He is a Professor in the Department of Orthodontics at the University of Washington in Seattle. He also maintains a private orthodontic practice in Tacoma, Washington. He has published 20 book chapters, 80 scientific articles, and 48 review articles. He has given over 800 presentations throughout North and South America, Europe, Africa, Australia, and Asia. He was awarded the Sichet Research Award by the American Association of Orthodontists, and has also received the Strang Award (1994), the Schluger Award (2000), the ICO Award (2001) the Dewel Award (2002), the AAED President’s Award for Teaching Excellence (2004), the 2005 Association Trends Bronze Award for Education Programs, and the 2005 Distinguished Alumnus Award from the University of Washington School of Dentistry.

Make a Difference, 
Become a Mentor

Mentoring a student for career and professional development gives them the opportunity...

• To discuss the concerns and challenges that the student is facing in dental school
• To provide realistic information about career options, employment conditions and job responsibilities
• To explore thoughts of residencies, private practice, research, teaching, or military service.
• To provide students with professional resources

If you are interested in being a mentor to a dental student please fill out following page.

"Learning is finding out that you already know. Doing is demonstrating that you know it. Teaching is reminding others that they know just as well as you. You are all learners, doers, and teachers."

Richard Bach
UT Health Science Center Dental School

Sterilizer Monitoring Service

Is your office safe?
Are you complying with OSHA standard?

TDA ADVISES DENTISTS TO FOLLOW TSBDE RULES TO THE LETTER. TSBDE Rule 108.24(b)(5) states: “Sterilization equipment and its adequacy shall be tested and verified in accordance with the American Dental Association (ADA) Recommendations.”

ADA and CDC RECOMMEND WEEKLY VERIFICATION AND DOCUMENTATION OF INSTRUMENT STERILIZATION (i.e. sterilizer monitoring) on each sterilizer. Sterilization of high-speed dental hand-pieces between patients is now recommended by CDC, ADA, FDA and required by at least some state dental boards.

Biological monitors are recognized as the best indicator of the presence or absence of living microorganisms. Biological indicators are used to challenge sterilizers and are the only devices, which, can integrate all process parameters required for sterilization. Those parameters measured include: temperature, time, degree of steam saturation, degree of steam purity, penetration of sterilant through obstacles such as wrapping, trapped air, and other goods being sterilized. Results of laboratory tests serve as a tangible record as well as a legal device where proof of sterilization must be provided.

The Board of Directors of the Dental School Alumni Association provides a sterilizing monitoring service. The money from the use of this service has two benefits: one-the product and the service, and two-to support programs benefiting dental students and alums. You do not need to be a member of the Dental School Alumni Association to participate in the Sterilizer Monitoring Service.

Our spore strip kits can be used in steam, chemical vapor, dry heat and ethylene oxide gas sterilizers. Each kit contains two (2) test strips to confirm sterile conditions throughout the chamber, and one (1) control strip to guarantee accurate results, and a return mailer for confirmation of test results. The culturing service is included in the price of the kit.

Culture reports are mailed on a quarterly basis. In the event that you have a positive culture result you will be notified immediately by phone and a laboratory report will be sent to you.

Remember to place your spore monitoring kit in a fully loaded sterilizer with regular wrapped instruments.

Before you begin, you should be aware of the most common problems resulting in positive culture results:

- Overloaded chambers
- Failure to preheat the sterilizer
- Improper cleaning of items before sterilization
- Setting the time and/or temperature too low
- Interruption of the cycle
- Tightly wrapped packages

We look forward to your participation in this program.

STERILIZER MONITORING SERVICE

We're heading back to Steamboat for the 14th ANNUAL SKI & LEARN at the newly renovated Sheraton Steamboat Resort Steamboat Springs, Colorado...Ski Town U.S.A. February 12-14, 2009

jointly sponsored by:
University of Minnesota, School of Dentistry
&
University of Texas Health Science Center at San Antonio, Dental School

About the Steamboat Ski Area
Steamboat, positioned 7,000 feet up in the Colorado Rockies is home to one of North America's largest ski mountains. This northwestern Colorado ski resort, which averages 27 feet of snow yearly, is renowned for its season-long "champagne powder." Steamboat ski area gives you not just one mountain to explore but five peaks that include 141 trails (13% beginner, 56% intermediate, 31% advanced), all accessed by one of the Rockies largest lift systems. The Silver Bullet™ 8 passenger gondola and three high-speed quad chair lifts assure little or no lift lines. Steamboat is also recognized for having one of the finest ski & snowboard schools and the premier kids program in the industry. And, as an added bonus, kids 12 years of age and under ski free when parents purchase a five-day pass.

About the City of Steamboat Springs
The city of Steamboat Springs offers two distinct shopping and entertainment areas, the "Village" and "Old Town," with free bus transportation between the two. Included in the area are over 70 diverse restaurants and bars and an abundance of boutiques and galleries to explore. There is also plenty to do for the non-skiers and site-seers, from hot air balloon rides to horse drawn sleigh rides, mountain top dining, tubing, snowshoeing, hot spring pools, snowmobile excursions, and more.

About the Sheraton Steamboat Resort
This full-service, luxury ski-in/ski-out hotel will undergo a $20 million renovation in 2008. You will enjoy all new redesigned, luxurious, cozy guestrooms with flat panel TV, a large workspace, wireless internet access (fee), and more. Other updates include a new lobby, new restaurant, new lounge, plus over 25,000 feet of meeting space.

You will also benefit from the Sheraton's fabulous location — at the base of the mountain, just steps from the Silver Bullet™ gondola and the dining and shopping attractions of Ski Time Square, as well as all of the amenities we've enjoyed in the past:

- 268 guest rooms, suites and condominiums
- refrigerator, coffee makers and complimentary coffee
- cable TV with premium movie channels, pay movies & Nintendo
- room service, daily paper, laundry and dry cleaning service
- complimentary ski storage and ski valet service
- complimentary underground parking
- private balconies and mountain views
- electronic games room
- steam rooms and fitness center
- outdoor heated pool and hot tubs
- ski & sport shops, gift shop and ski rental
Come to San Antonio, considered to be one of the four unique cities in the United States, and experience the essence of the Alamo City - its casual Texas flavor accented by the rich heritage of old Mexico.
