Depending on the direction you are coming from
1. Take IH-10 East or West, exit 1604 West
2. Exit Kyle Seal Pkwy Hausman exit
3. Go through the Kyle Seale Pkwy intersection
4. Continue on 1604 West access road
5. Take a right onto FM Rd 1560
6. You will come to a traffic light
7. After the traffic light Pedrotti’s will be on your right hand side

The James P. Hollers Memorial Lectureship will be held at:
Pedrotti’s North Wind Ranch
13715 FM 1560N
1604 and Hausman Rd (FM Rd 1560)

Featuring
J. William Robbins, D.D.S., M.A.
“Global Diagnosis” - A new Vision of Dental Diagnosis and Treatment Planning
November 16, 2012
The Alumni Association invites you to attend
The James P. Hollers Memorial Lectureship

As we honor Dr. James P. Hollers at the 29th Annual Lectureship, we commemorate his memory as a Texan with vision, numerous civic and military achievements, and as a dentist of national stature, having held the post of President of the American Dental Association. In celebrating his memory, we have invited another prominent lecturer, Dr. J. William Robbins, to present pertinent clinical and relevant information at the 29th Annual Hollers Lectureship.

One of the turning point events in the long history of San Antonio took place on June 5, 1969 in front of the Alamo under the blazing South Texas sun. Preston Smith, Governor of Texas, signed the legislative bill that authorized the construction of the Dental School in San Antonio as well as the Nursing School and The University of Texas at San Antonio. Proudly looking on, just over Governor Smith’s shoulder, was Dr. Jim Hollers, who on that day saw his twenty year campaign to bring not only a Dental School, but also an entire Medical Center Complex to San Antonio, transformed from dream to reality.

Dr. Billy Rigsby came to San Antonio from Houston with Dr. Victor Olson and was in on the ground floor of planning in 1970. Drs. Olson, Rigsby, and many other faculty members who signed on in the first year worked round the clock to blueprint the facility and ensure it was state-of-the-art.

Dr. Kenneth D. Rudd Continuing Education Participant Award…

Dr. Kenneth D. Rudd is a Professor Emeritus in the Department of Prosthodontics, and the former Associate Dean for Continuing Dental Education at The University of Texas Health Science Center at San Antonio, Dental School. He is an internationally renowned prosthodontist and is recognized for his leadership in numerous dental organizations. Dr. Rudd has dedicated more than 50 years to the field of dentistry. He continues his involvement in dentistry and is currently working on specifications for dental materials for the American National Standards Institute/ADA.

Your patronage to our continuing dental education courses allows us to continue to recognize his outstanding contributions.
November 16, 2012
Join us as we celebrate our 29th Annual James P. Hollers Memorial Lectureship
Lecture Course
“Global Diagnosis” - A new Vision of Dental Diagnosis and Treatment Planning
J. William Robbins, D.D.S., M.A.

OVERVIEW
With the increased emphasis on interdisciplinary treatment in recent years, the deficiencies associated with traditional methods of diagnosis and treatment planning have become more evident and problematic. Historically, the treatment plan was primarily dictated by information provided by study casts which were mounted on a sophisticated articulator in centric relation. At that time in history, the primary tools available for treating the complex restorative patient were functional crown lengthening surgery and increasing the vertical dimension of occlusion. The treatment plan was simply based on restorative space, anterior tooth coupling and resistance and retention form of the final preparations, with no focus on placing the teeth in the correct position in the face. Practitioners did not have access to advanced periodontal, orthodontic and orthognathic surgical tools that are currently available. With the advent and common usage of these new treatment modalities, the historical method of diagnosis and treatment planning is no longer adequately serving our profession. It is the purpose of this course to provide a systematic approach to diagnosis and treatment planning with a common language that may be used by the orthodontist, periodontist, and oral and maxillofacial surgeon, as well as the restorative dentist.

- Global Diagnosis
- Communication with specialists
- Principles of Esthetics
- A systematic approach to facial, esthetic, and functional diagnoses

- Global Diagnoses
  - Short or Hyperactive Maxillary Lip
  - Altered Passive Eruption
  - Dentoalveolar Extrusion
  - Skeletal Deficiency
  - Combination

OBJECTIVES
Upon completion of this course the participant will be able to:
- Describe 4 Global Diagnoses
- Describe the “5 CORE Questions” with their corresponding treatment options
- Complete a Global diagnosis form which will lead to a comprehensive diagnosis
- Communicate with interdisciplinary team

PRESENTER
J. WILLIAM ROBBINS, D.D.S., M.A., graduated from the University of Tennessee Dental School in 1973. Dr. Robbins maintains a full-time private practice and is Clinical Professor in the Department of Comprehensive Dentistry at the University of Texas Health Science Center at San Antonio Dental School. He completed a rotating internship at the Veterans Administration Hospital in Leavenworth, Kansas and a 2-year General Practice Residency at the VA Hospital in San Diego, California. Dr. Robbins has published over 80 articles, abstracts, and chapters on a wide range of dental subjects and has lectured in the United States, Canada, Mexico, South America, Europe, Middle East and Africa. He coauthored a textbook, Fundamentals of Operative Dentistry – A Contemporary Approach, which is published by Quintessence, and is in its 3rd edition. He has won several awards including the Presidential Teaching Award at the University Of Texas Health Science Center, the 2002 Texas Dentist of the Year Award, and the 2003 Honorary Thaddeus V. Weclow Fellowship Award from the Academy of General Dentistry, and the 2010 Saul Schlager Award given by the Seattle Study Club. He is a diplomat of the Federal Services Board of General Dentistry and the American Board of General Dentistry and is a past president of the American Board of General Dentistry. He is a member of several organizations including the American College of Dentists, the International College of Dentists, the American Dental Association, the American Academy of Restorative Dentistry, the Southwest Academy of Restorative Dentistry, the Academy of General Dentistry, and the Academy of Operative.

TIME
Check-in and Beverage Service: 7:30 AM

PREREGISTRATION: Preregistration for all courses is necessary. It is beneficial for participants to preregister for a course as the course packet will be available for them at final check-in. Please call the Office of Continuing Dental Education at (210) 567-3177 to preregister for a course or fax it to 210-567-6807 or mail the registration form with check made payable to “UTHSCSA” to:

The University of Texas Health Science Center at San Antonio
Continuing Dental Education and Alumni Affairs-MSC 7930
7703 Floyd Curl Drive, San Antonio, Texas 78229-3900
Phone 210-567-3177 Fax 210-567-6807 • Web Site: http://smile.uthscsa.edu

HOLLERS MEMORIAL LECTURESHIP REFUND POLICY
If you must cancel your registration, please notify the Office of Continuing Dental Education as soon as you determine you are unable to attend so that a refund may be considered. Due to commitments to off-site properties, any cancellation made prior to September 16, 2012, will be subject to an administrative fee assessment of $160.00. Any cancellation made after September 16, 2012, does not qualify for a refund. However, participants may choose to place their tuition minus an administrative and direct cost fee assessment into a holding account for future use. “No Shows” will not qualify for refunds. Written notification is required within five business days by mail, fax, or e-mail to initiate the refund process. Please allow four to six weeks for all refunds. Specific refund policies may apply to all off-site programs. Contact our office for specific refund policy regarding any course.
A short while ago, you were informed by President William Henrich that he will be taking a medical leave of absence, probably through the end of this calendar year. We fully expect that he will recover rapidly and completely to return to the Presidency of the Health Science Center. We wish him a quick and easy course of treatment.

Dean Kenneth Kalkwarf has agreed to serve as the President ad interim until Dr. Henrich’s return.

Dean Kalkwarf has served since 1988 as Dean of The University of Texas Health Science Center at San Antonio Dental School. During this time, the school has been ranked among the very top Dental Schools in America. In his distinguished career, Dr. Kalkwarf has been the author of over 175 article chapters and abstracts in professional journals. In 2009 he received the American Dental Association’s highest award -- the Distinguished Service Award. He has been very active in the San Antonio community and has experience dealing with public policy issues. He has also been very active in his professional societies, both locally and nationally.

We are very grateful to Dean Kalkwarf for his willingness to assume this responsibility. Dr. William Dodge will serve as the Interim Dean of the Dental School during this period. We appreciate his service as well.

Kenneth I. Shine, M.D.
Executive Vice Chancellor for Health Affairs
The University of Texas System

Enjoy reading these news stories. They were released on Friday, June 22, 2012 from The University of Texas System and HSC News.
It is with mixed emotions that I inform you that I will step down as Dean of the Dental School, and retire from the University of Texas Health Science Center at San Antonio, at the conclusion of my role as Interim President.

I see a great opportunity to merge all of the changes (Dental Hygiene, Basic Sciences, New Clinical Facility, CODA Standards, National Boards) that are occurring around us into an environment supporting a much better model for dental education. Being involved in the final creation of that model would be exciting. However, I realize the exhilaration, and responsibility, of creating a new model belongs to those who will function within it.

My twenty-five years at the Dental School are most memorable, and have been the highlight of my academic career. It was made that way by the quality of the faculty members that create and advance our academic programs, the quality of the staff members that maintain and improve all the components of our support infrastructure, and the quality of our students who spend an important stage of their life with us, and then go on to advance our profession.

Thanks to all of you for making this a GREAT place!

I look forward to working with Bill Dodge, as Interim Dean of the Dental School, and all of you, as we continue to move the School forward over the next several months in preparation of welcoming a new Dean.

- Ken
Don’t Delay
Renew your membership today,
if you have not done so for this year!

You might be asking

“How Does My Membership Help?”

By printing and publishing the James P. Hollers Memorial book, which is given to students.

- Scrubs to the students
- Dental Student Scholarships
- Dental Student Activities
- Class Reunions
- Alumni activities and receptions
- $75.00 off the CE course at South Padre Island

You will also receive two $20.00 discount coupons to use at any CE course at the dental school

Also save 10% off your next order of Sterilization strips, a $20 savings on an annual supply

Please complete the form on page 8 and return with your membership dues.
Gathering the Stars of Texas

Dear UTHSCSA Dental School Alumnus:

This is our tenth year of transitioning your Alumni Association to establish a stronger and more efficient operation within the Dental School.

Mr. Bill Butler, Director of Continuing Dental Education & Alumni Affairs, will continue to manage our growing alumni activities and related events. We are so fortunate to have his highly capable and enthusiastic staff members to continue help us through our continued transition and beyond.

Ten years ago, the Executive Board approved the awarding of a one-year complimentary membership to each graduate of our Dental School. Each year, all new dental graduates will receive a note commending them on their accomplishment and a one-year membership card from our Association. The first round of renewals generated a tremendous response from our Alumni. Your continued support is most important since dues income is critical to the operation of our Association. If you missed renewing this year, please do so now. We are asking all lifetime members to return the form so we can keep our records up to date. Membership has its privileges. The first benefit you will receive is discounted Sterilization Monitoring strips and TWO discount coupons worth $20.00 each to apply to any future CDE course held at the Dental School. That represents a 87% return on your annual dues.

We continue to ask you, our Alumni, to help support the purchase of scrubs for our incoming dental students. Your gracious donation will be acknowledged in the “Welcome to the Profession” program. Last year we have added another area for your financial support, the book “A Man of Works: The Life of James P. Hollers” by Dr. Bill Baker to be handed out to the graduating students. To ensure future printing’s please make a separate donation to the The James P. Hollers Memorial Lectureship Endowment, UTHSCSA, Dental School Development Office, mail code 7906; 7703 Floyd Curl Drive; San Antonio, Texas 78229-3900; Questions? Call (210)-567-3177.

Remember, a strong, visible and enthusiastic Alumni presence in our professional arenas helps to enhance the reputation of our Dental School and in turn ensures the unsurpassed Value of our Diploma’s.

Michael L. Boland, D.D.S.

The graduates of the Dental School of The University of Texas Health Science Center at San Antonio fondly remember the many dedicated faculty and staff who challenged them through their student years. This relationship strengthened as each alumnus continued his or her professional career. Dental School faculty and staff have influenced up to three decades of students and have helped establish the reputation of the Dental School as a leader in dental education.

To recognize the dedication of our faculty and staff, the Dental Alumni Association established the Distinguished Faculty and Service Award—Richard H. Carr, Jr., D.D.S. Endowed Scholarship in the fall of 2000. The honored individual will be selected every two years and announced at the annual Alumni reception during the Texas Dental Association Annual Session.

James B. Summitt, D.D.S., M.S., is currently professor and chair, Department of Comprehensive Dentistry, University of Texas Health Science Center (UTHSC), San Antonio, Texas. He has been actively involved in research in the area of current restorative dentistry techniques and materials, including adhesive systems and resin-based composites. He has published over 160 papers, book chapters, and abstracts concerning subjects related to restorative dentistry. He is a member of the editorial boards for Operative Dentistry, the American Journal of Dentistry and the Journal of Evidence-Based Dental Practice. He also serves as a manuscript reviewer for the Journal of the American Dental Association, the Journal of Dentistry, Quintessence International, and the Journal of Dental Research. He is primary editor and co-author of the third edition of the textbook, Fundamentals of Operative Dentistry: A Contemporary Approach, published by Quintessence Publishing Co. He has conducted many continuing education courses in the United States and abroad.

Dr. Summitt is a past-president of the Academy of Operative Dentistry. He is past-president of the American Board of General Dentistry and is a fellow of the American and International Colleges of Dentists and a Master of the Academy of General Dentistry. He also has memberships in the American Dental Association, the American Academy of Restorative Dentistry, the International and American Associations for Dental Research, the American Dental Education Association, and other professional organizations.

He received the Academy of Operative Dentistry’s 2005 Award of Excellence and that Academy’s 2009 Hollenback Prize. He was named University of Tennessee College of Dentistry’s 2009 Outstanding Alumnus of the Year and, for the last five years, has been named a Texas Super Dentist by Texas Monthly magazine. He has also been listed in Who's Who among Executives and Professionals, Who’s Who in Dental Sciences Education, Who's Who in Dentistry, and Who's Who among America's Teachers.

Link Up with the Alumni Association

Greetings to all of our wonderful alumni! I hope 2011 is starting off as a great year for everyone!

As the Alumni Association continues to grow and look ahead to the future, we are finding there is a need to expand the avenues in which we connect to all of our alumni. Not only are we looking to communicate messages about all Alumni Association news, but we also see a need to receive feedback from our members in a more efficient manner. Because of these reasons, we are happy to announce that the Alumni Association is now online with both Facebook and Twitter!

If you are not yet a member of Facebook:

1. Go to the webpage www.facebook.com
2. Fill in the fields for Name, Email and password then select your gender and birthday.
3. From there, fill out your profile, and you will be able to search for our group

To find us on Facebook:

1. After you have logged in, in the Search field at the top right corner of your page, type in UT Health Science Center Dental School, Alumni Association.
2. Click on the magnifying glass next to the Search field
3. Click on the link under groups which says UT Health Science Center Dental School, Alumni Association
4. Near the top right of the page, click on the button that says Request to Join

Once we confirm you as a member of the group, you will be able to see any general postings from the main page. There are also discussion threads for each graduating class as well as the Japanese Exchange Program; you can find these threads by clicking on the Discussion tab towards the top of the page then clicking on the link for the thread you would like to go to.

If you are not yet a member of Twitter:

1. Go to the webpage twitter.com
2. Click on the green Sign up now button on the right side of the page
3. Fill in the fields for name, username, password and email address, as well as verifying the words listed

To find us on Twitter:

1. After you have logged in, go to the webpage twitter.com/uthscsadsaa
2. Towards the top of the page, click on the Follow button
3. You will now be able to follow our announcements on Twitter!
Please assist us in maintaining accurate alumni records by completing and returning this form. We also would like to know information for publication in the “class notes” section of your alumni newsletter. (Please Print)

are pleased to present.....
The 18th ANNUAL
Ski & Learn
Steamboat Springs, Colorado
Thursday-Saturday
February 7-9 2013
Featuring
Dr. David J. Clement & Dr. Stephen K. Shuman

For registration or more information, please contact:
The University of Texas Health Science Center at San Antonio • Continuing Dental Education
7703 Floyd Curl Drive - MSC 7930 • San Antonio, TX 78229-3900
phone (210)567-3177 • fax (210) 567-6807
www.smile.uthscsa.edu
OBJECTIVES AND SCHEDULE

Thursday, February 7
7:30-9:30 AM
Stephen K. Shuman, D.D.S., M.S.
Bisphosphonate-related Osteonecrosis (BRON)
• Describe the scope of the caries problem in older adults and identify key risk factors.
• Employ methods to improve root caries diagnosis and recognize potential limitations.
• Choose between various treatment options, restorative materials and techniques.
• Employ practical strategies to prevent and reduce caries that are tailored to older adults.

4:30-6:30 PM
“Fitting the Pieces Together: Common Treatment Planning Issues for Older Adults”
Stephen K. Shuman, D.D.S., M.S.
• Identify and describe common concerns and challenges in treatment planning older adults.
• Describe practical approaches to communicating with older patients about treatment planning issues.
• Employ strategies to address concerns about patient health, longevity, and informed consent.

Friday, February 8
7:30-9:30 AM
Dental & Dental Care: Things to Remember When Patients Forget
• Recognize the signs and symptoms of various types of dementia.
• Identify and discuss potential oral health consequences of dementia.
• Describe practical treatment planning and patient management strategies.
• Avoid potentially hazardous consequences of dental care for dementia patients.

4:30-6:30 PM
David J. Clement, D.D.S.
Philosophy and Techniques for Molar Root Canal Therapy
• Incorporating the principles of Canal Pathway, orifice Management, Canal Flaring and Apical Finishing into separate procedural steps.
• Introducing a variety of ‘Hybrid’ Techniques that can improve the predictability of your care, irregardless of the rotary system currently used.

Saturday, February 9
7:30-11:30 AM
Endodontic Diagnosis for the Vital Pulp
• Confidently identify the signs and symptoms of an Irreversible Pulpitis, even when no clinical or radiographic evidence of pathology exists.
• Learn how to expedite the diagnosis and provide an informed consent for root canal therapy during a ‘Problem Focused Exam’.

Pulp Reactions to Restorative Procedures
• Understand how increased dentin permeability is a predictable consequence of many modern restorative procedures.
• Identify circumstances when increased dentin permeability and persistent restorative microleakage can adversely affect pulp survival.

PRESENTERS
STEPHEN K. SHUMAN, D.D.S., M.S., received his dental degree from Temple University in 1982, followed by his M.S in Geriatric Dentistry from the University of Minnesota in 1989. He joined the University of Minnesota’s faculty in 1989 and is now Associate Professor and Director of the School’s Geriatrics Program and directs training at the Walker Methodist Dental Clinic in Minneapolis and the new HealthPartners’ Midway Seniors Dental Clinic, where he also maintains his clinical practice. Dr. Shuman served on the Board of Directors of the American Society for Geriatric Dentistry for 10 years and was President of that organization from 1998-99. He has also served as a board member of the Special Care Dentistry Association and currently serves as Chair of the Minnesota Dental Association’s Committee on Elderly and Special Needs Adults. His teaching and clinical programs have been recognized with the ADA’s national Geriatric Oral Health Award, as well as at the state and local levels.

DAY J. CLEMENT, D.D.S., received his dental degree from the University of Minnesota in 1981. His varied dental career brings a wealth of information and perspectives to all levels of endodontic practice. Dr. Clement was a general dentist for nine years, an endodontic post graduate educator, and had a specialty endodontic practice. Dr. Clement is currently a Professor and the Program Director at the UTHSC at Memphis, TN Advance Endodontic Program. The philosophical consistency and hands-on approach he brings to his topics helps the information he presents span multiple levels of understanding.

ABOUT THE STEAMBOAT SPRINGS AND THE SHERATON RESORT
Steamboat, positioned 7,000 feet up in the Colorado Rockies, is home to one of North America’s largest ski mountains. This northwestern Colorado ski resort, which averages 27 feet of snow yearly, is renowned for its sea-son-long “champagne powder.” The Steamboat ski area gives you not just one mountain to explore but five peaks that include 141 trails (13% beginner, 56% intermediate, 31% advanced), all accessed by one of the Rockies largest lift systems.
Steamboat is also recognized for having one of the finest ski & snowboard schools and the premier kids program in the industry. And, as an added bonus, kids 12 years of age and under ski free when parents purchase a five-day pass.

The City of Steamboat Springs offers two distinct shopping and entertainment areas, the “Village” and “Old Town,” with free bus transportation between the two. Included in the area are over 70 diverse restaurants and bars and an abundance of boutiques and galleries to explore.

The Sheraton Steamboat Resort and Conference Center is nestled at the base of the mountain, just steps from the Silver Bullet™ gondola and the dining and shopping attractions in Ski Time Square. This full-service, luxury ski in/ski-out hotel includes: 315 guest rooms, suites and condominiums, each with private balcony; sauna, steam rooms and fitness center; outdoor heated pool and hot tub; complimentary ski storage and ski valet service; ski & sport shops, gift shop and ski rental; complimentary underground parking, two restaurants and one lounge.
Steamboat is located 22 miles from the Yampa Valley Regional Airport in Hayden. Daily nonstop flights from eight major cities (including Minneapolis/St. Paul and Dallas/Ft. Worth) are available, as are frequent daily jet and commuter connections from Denver. If you wish to drive, Steamboat is an easy 3 1/2-hour drive (157 miles) from Denver. Steamboat Springs has a wonderful bus system so a rental car is not necessary.

We recommend Alpine shuttle to and from the airport, book directly with them at www.alpinetaxi.com

RESORT RESERVATIONS
Please coordinate your hotel accommodations on your own by calling the reservation office or finding hotels online. You can speed the reservation process up by going on-line to the following link:
https://www.starwoodmeeting.com/StarGroupsWeb/res?ids=1207134385&key=BE8D1
You can find their website on our homepage at www.smile.uthscsa.edu.

Room options and prices vary—standard rooms are priced at $299/night. In order to receive the group rate, refer to The University of Texas / University of Minnesota Ski & Learn Reservation Form. Please note that the room reservation cut-off date is December 17, 2012. Reservation requests after that date, will be accepted on a space and rate availability basis. This course is scheduled during peak tourist season so make your reservations early. An additional fee of $50.00 per dentist or dental team member will be assessed to course attendees not staying at the Sheraton Steamboat Resort.

REGISTRATION INFORMATION
Pre-registration is necessary. Please call the Office of Continuing Dental Education at The University of Texas Health Science Center at San Antonio, (210) 567-3177 or mail the registration form with check made payable to “UTHSCSA” to:
UTHSCSA; Continuing Dental Education MSC 7930
7703 Floyd Curl Drive
San Antonio, Texas 78229-3900.
(210) 567-3177 FAX (210) 567-6807
Payment may also be made by credit card - Mastercard, Visa or Discover only.

TIMES
Pre Check-in: Wednesday 9:30 PM-10:00 PM
Sign-In & Blast: Thursday, 7:00 AM
Program: Thursday-Friday, 7:30-9:30 AM; 4:30-6:30 PM Saturday, 7:30-11:30 AM
Breakfast will be served at the morning session. Snacks and refreshments will be available for the course participants at the afternoon sessions.

LOCATION
Sheraton Steamboat Resort and Conference Center, Steamboat Springs, Colorado

TUITION
Individual: $495.00
$50 additional fee per person will be assessed to course attendees not staying at the Sheraton Steamboat Resort:
$495.00 + $50.00 = $545.00

**3 Step Savings Plan - This is how it works**

1. GOOD: Register with Sheraton Steamboat Resort and Conference Center before December 7, 2012 and save an additional $40.00 off the tuition price. (Your registration fee will be $455.00 due by January 11, 2013)

Savings Plan 1: $495.00 - $40.00 = $455.00

2. BETTER: If you reserve your room with Sheraton Steamboat and send us a $100.00 nonrefundable deposit before November 7, 2012, you will qualify for an additional $20.00 off the tuition price. (Your registration fee will be $435.00).

Savings Plan 2: $495.00 - $40.00 - $20.00 = $435.00

3. BEST: Reserve your Sheraton Steamboat room and register for the course in full before October 26, 2012 and receive an additional $10.00 off the tuition fee. (Your registration fee will be $425.00)

Savings Plan 3: $495.00 - $40.00 - $20.00 - $10.00 = $425.00

*An additional fee of $50.00 per individual to be included if not staying at the Sheraton Steamboat Resort.

CREDIT (Course Code: 152502A)
AGD Code: 070, 073, 072, 257, 258, 752, 735, 734, 754
Hours: 12
LU N C H  A N D  LEA R N  R EFU N D  PO LICY
If you must cancel your registration, please notify the Office of Continuing Dental Education as soon as you determine you are unable to attend so that a refund may be considered. Due to commitments to this special series, any cancellation made 30 days prior to January 7, 2013 will be subject to an administrative fee assessment of $160.00. If you must cancel an individual course $60.00 will be withheld. Any cancellation made after that date does not qualify for a refund. However, participants may choose to place their tuition minus an administrative and direct cost fee assessment into a holding account for future use. No Shows will not qualify for refunds. Written notification is required within five business days by mail, fax, or e-mail to initiate the refund process. Please allow four to six weeks for all refunds.

MEETING DATES:
February 7, 2013
Salivary/Oral Diagnostics Update
Spencer W. Reddinger, D.D.S., MEd

March 7, 2013
Anomalies of the Pediatric Oral Cavity
Jeffrey C. Malby, D.D.S.

April 4, 2013
Vibratory Loading Stimulates Orthodontic Tooth Movement and Reduces Treatment Time: Results from a UTHSCSA Clinical Trial
Dubinavo Pavlin, D.M.D., Ph.D.

May 9, 2013
Treating the Pregnant Dental Patient
Barbara MacNeill, D.M.D.

June 13, 2013
Is Occlusion Dead or Just Sleeping It Off?
Jeffrey Scott Rouse, D.D.S.

July 11, 2013
Using Technology in Implant Dentistry
David A Little, D.D.S.

August 8, 2013
Potpourri of Implant Surgery
James M. Duncan, D.D.S.

September 5, 2013
TBD

October 3, 2013
TBD

November 7, 2013
Socket Preservation: Indications and Options
Guy Huynh-Ba, D.D.S., M.S.

LOCATION
Private Dining Room in the cafeteria at The University of Texas Health Science Center at San Antonio, (back of Dental School and adjacent to Visitor Parking Lot); 7703 Floyd Curl Drive; San Antonio, Texas 78229-3900.

LUNCH INCLUDED
Plan to arrive at 11:30 AM or shortly thereafter. This will give you plenty of time to eat before the presentation starts at 12:00 PM. Should you be delayed in arriving, you can eat during the presentation. The presentation will be completed by 1:00 PM at the latest so you can schedule your first afternoon patient early.

CREDIT (Course Code: 152500A)
Each luncheon: 1 AGD Lecture Credit, Subject Code (dependent on lecture topic) 1 CEU

TUITION
(Includes Luncheon and Lecture)
Entire Series: $399.50
Individual Lecture: $49.50
For your dental assistant, a new TSBDE Required Dental Assistant’s Registration Course and Examination is available online.

It’s fast, convenient, and affordable! Just go to:
http://smile.uthscsa.edu click on interactive web courses, select Dental Assistant registration course to preview and register!

take it on-line for $60.00!

The University of Texas Health Science Center at San Antonio
Continuing Dental Education • phone: 210.567.3177

For your dental hygienists & dental assistants, a new TSBDE approved certification course is available online.

It’s fast, convenient, and affordable! Just go to:
http://smile.uthscsa.edu click on interactive web courses, select Monitoring the Administration of Nitrous Oxide (for Dental Hygienists and Dental Assistants) to preview and register!

take it on-line for $100.00!

Continuing Dental Education • phone: 210.567.3177
How can I add CDEmobile app to my smartphone/device? (for iPhone, iPad, iPod touch only)

Go to: http://cdemobile.uthscsa.edu and follow the steps below.

CONGRATULATIONS! LET'S GET STARTED...

STEP 1
Click on the CDEmobile app that is on your smartphone.

STEP 2
Wait for the following screen to appear. Make your course selection from the three(3) categories.

STEP 3
Upon course selection, you will be given the opportunity to preview the course or register to watch the full presentation. After registering you’ll be directed to a link that will allow you to login to the course.

STEP 4
After viewing the course material, if you wish to receive CE credit, click on the “Done” button. This will take you to the link that will allow you to register, pay the fee, and take the required exam.

STEP 5
After successful completion of the exam, you will automatically be sent a confirmation e-mail, you need to print and retain as your official copy.

GOOD LUCK ON THE EXAM!

There is not a fee for viewing this material. However, you will be asked to register. After viewing the course material, if you wish to receive credit, you will be given instructions how to do so.

INTERNET CONNECTIVITY
Broadband connection is required. High-speed connection (via WiFi, cable, DSL or satellite) is recommended.

CAN I HAVE ACCESS TO CDEmobile USING A COMPUTER (DESKTOP OR LAPTOP)?
Yes, you may access the same content using your desktop or laptop computer via our CDEonDemand site at: http://cdeondemand.uthscsa.edu
CDE on Demand are 1-hour video presentations which allow users to select and watch/listen to internet/streaming continuing education video content available 24 hours-a-day, 7 days-a-week in the comfort of your home or office. You may watch previews of the video presentations and can also register for FREE for the full feature version. To earn continuing education (CE) credit, you enroll by paying the testing fee and taking the online quiz. Check out the courses on page.

Broadband internet connection is recommended for a more satisfactory playback experience.

You also have access to CDE on Demand using your mobile device (iPhone, iPod touch, iPad, and Android Smartphones) via CDEmobile at http://cdemobile.uthscsa.edu.

Video presentations are streamed in your web browser in Quicktime format. If you don’t have Quicktime software installed in your computer, you may download from Apple's website at: http://www.apple.com/quicktime/download/
Become More Mobile

TDA ADVISES DENTISTS TO FOLLOW TSBDE RULES TO THE LETTER. TSBDE Rule 108.24(b)(5) states: “Sterilization equipment and its adequacy shall be tested and verified in accordance with the American Dental Association (ADA) Recommendations.”

ADA and CDC RECOMMEND WEEKLY VERIFICATION AND DOCUMENTATION OF INSTRUMENT STERILIZATION (i.e. sterilizer monitoring) on each sterilizer. Sterilization of high-speed dental hand-pieces between patients is now recommended by CDC, ADA, FDA and required by at least some state dental boards.

Biological monitors are recognized as the best indicator of the presence or absence of living microorganisms. Biological indicators are used to challenge sterilizers and are the only devices, which, can integrate all process parameters required for sterilization. Those parameters measured include: temperature, time, degree of steam saturation, degree of steam purity, penetration of sterilant through obstacles such as wrapping, trapped air, and other goods being sterilized. Results of laboratory tests serve as a tangible record as well as a legal device where proof of sterilization must be provided.

The Board of Directors of the Dental School Alumni Association provides a sterilizing monitoring service. The money from the use of this service has two benefits: one-the product and the service, and two-to support programs benefiting dental students and alumni. You do not need to be a member of the Dental School Alumni Association to participate in the Sterilizer Monitoring Service.

Our spore strip kits can be used in steam, chemical vapor, dry heat and ethylene oxide gas sterilizers. Each kit contains two (1) test strip to confirm sterile conditions throughout the chamber, and one (1) control strip to guarantee accurate results, and a return mailer for confirmation of test results. The culturing service is included in the price of the kit.

Culture reports are mailed on a quarterly basis. In the event that you have a positive culture result you will be notified immediately by phone and a laboratory report will be sent to you.

Remember to place your spore monitoring kit in a fully loaded sterilizer with regular wrapped instruments.

Before you begin, you should be aware of the most common problems resulting in positive culture results:

- Overloaded chambers
- Failure to preheat the sterilizer
- Improper cleaning of items before sterilization
- Setting the time and/or temperature too low
- Interruption of the cycle
- Tightly wrapped packages.

We look forward to your participation in this program.

STERILIZER MONITORING SERVICE
